

The silicone rubbers and accessories listed below were independently evaluated with respect to the requirements of the applicable sections of U.S. Federal Hazardous Substance Act (FHSA) Regulations (16 CFR 1500), LHAMA (16 CFR 1500.14), ASTM D4236, Sections 201(s) and 409 of the Federal Food, Drug, and Cosmetic Act and requirements for Toxicology Risk Assessments. This evaluation determined that these products will not pose acute or chronic adverse health effects in humans when accurately measured, thoroughly mixed, and fully cured.

The addition of additives, such as color pigments, create conditions that have not been tested and therefore no statement can be made with respect to their compliance.

Platsil® 71-10 Silicone Rubber A/B

Platsil® 71-20 Silicone Rubber A/B

Platsil® 71-30 Silicone Rubber A/B

Platsil® 73-29 Silicone Rubber A/B

Platsil® HTS-40 A/B

These Polytek® silicone rubbers are often used to make medical models of whole bodies or body parts, scars, masks, age make-up, injuries for actors, creatures for movies and television, animatronic characters and much more.

BEFORE USE: Thoroughly read Safety Data Sheets, product labels and the "SAFETY" section in this Technical Bulletin.

Review product Technical Bulletins for processing instructions.

SAFETY: Before use, thoroughly read Safety Data Sheets and product labels. Follow safety precautions and directions.

Part A: Keep out of reach of children. Use with adequate general or local exhaust ventilation to minimize exposure levels. Wear eye protection (e.g., chemical safety glasses) and rubber (e.g., nitrile) gloves. Wash thoroughly with soap and water after handling. If skin irritation or rash occurs, get medical help.

Part B: Keep out of reach of children. Use with adequate general or local exhaust ventilation to minimize exposure levels. Wear eye protection (e.g., chemical safety glasses) and rubber (e.g., nitrile) gloves. Wash thoroughly with soap and water after handling. If skin irritation or rash occurs, get medical help.

Skin-Safe Silicone Applications

- Medical Modeling & Simulation
- Theatrical Prosthetic Appliances & Makeup FX
